

I'm very shocked and angered that Sinclair broadcasting is forcing their stations to air the anti-Kerry documentary. The Ethics of running a media corporation should be fair and un-biased. If you air this program, please follow it up with a pro-Kerry film like, "Going up river". If this abuse goes forward, I will boycott any Sinclair stations and their sponsors. I will issue a complaint with the FCC and ask everyone I know to do the same.

To even consider doing this is a travesty! Sinclair's responsibility to its viewers should be thought out with common sense and fairness. This bias has not gone unnoticed and the name Sinclair will have a negative image along with companies like Halliburton! If you want this negative slant forever linked to Sinclair, then go ahead and air your bias attack on John Kerry. The logical, moral and correct thing to do is be un-bias and not run it or run a positive film on Kerry or Negative on Bush.

Please, play fair with your viewers. You have a responsibility!
Sincerely,

Jeff Goody
